

## Take - 1/1

**Interprété par Watts.**

Welcome back my friends  
To this shit that never ends  
There behind the glass  
Is the ever spreading ass  
Your thrills in hoc we got electro shocks  
Golden worlds and shit filled pearls  
Hands that steal and mouths that heal  
So step right up and baby you will feel...whole  
I am your hole  
We got high flown airsa electric chairs  
Hooks and whores fucks and laws  
Stay shut up and take a little token  
Keep your mouth shut baby  
And your legs wide open  
To the lonely preach my sweet fake  
Every dollar we will take  
Welcome back my friends  
To our sordid little end  
We got hits and writs and lines of shit  
A twisted take and a sweet mistake  
We've got a serpent sinner loser winner  
Drunk or sober it's never over i'm whole  
To the lonely preach my sweet fake  
Every dollar we will take  
Well our thinking's slow  
Our drinking's fast  
And hope your torture truly lasts  
You want reward  
You want pain  
We want risk  
And we want veins  
Keep youreyes shut here's a little token  
Keep your mouth shut baby  
And your legs wide open  
Dream on baby  
Dream on baby dream on  
To the lonely preach my sweet fake  
Every dollar we will take  
Dream on baby  
Dream on baby dream on
