Anytime that you want anything
Everything you will lose
Anything that you choose
Anything you say you believe
Ask and you will receive
So close your eyes and believe

I gave my youth my sanity
Waste of time and energy
Spent my life in agony
I really gave you all I had
Like pearls for schwein
All I had
Like pearls for schwein
Like pearls for schwein
Like pearls for schwein

With that smile on your face
And come in your hand
With a promise and gun
I unload and come
You can file and accuse
With your interest and dues
The front row of my misery show
I'm the one you can blow
