

## Lard, lips, liquor - 1/2

**Interprété par Schwein.**

In time the curtain will be torn Tonight, I come to be an emperor  
I consumed allnight up in tasty liquor and your flesh  
Remainig half mad May God Bless Glory Light on Us

Humbly meanly I am sucking you  
In this world falling liquor, fascinating flesh and you  
Humbly meanly I am sucking you

Your name is Margarita dancing with the God of Death

It's an antique called guilt Drink it up at a time  
Your cortex is being torn off  
Both I and you are fuckin' beast

Delight, It is a fool dream The eddy of killing and lust  
Crazily I dance with scattering liquor around  
Remaining half mad May God Bless Darkness Collapse on the empire

It's an antique called guilt Drink it up at a time  
Your cortex is being torn off  
Both I and you are fuckin' beast  
Both I and you are fuckin' beast  
What a cute little PIG !

I am fat I am thick dripping from your lips  
You are quick and so young  
Sometimes I give bent sometimes straight  
Time grants you thousands and heals all my wounds

You've done the crime  
Now take the time  
Lie right back and praise the schwein  
Emptiness that fills my cud  
But I will keep on banging up  
You know the captain he drunk  
Of this ship that is now sunk

Lard lips liquor  
Lard lips and I'll lick ya baby

In time the curtain will be torn

Humbly meanly I am sucking you  
In this world falling liquor, fascinating flesh and you

Your name is Margalita dancing with the God of Death  
It's an antique called guilt Drink it up at a time
