

Oh my god - 1/2

Interprété par Kaiser Chiefs.

Time on your side that will never end
The most beautiful thing you can ever spend
But you work in a shirt with your nametag on it
Drifting apart like a plate tectonic
It don't matter to me
It's all I wanted to be
It's a million miles from here
Somewhere more familiar

Too much time spent dragging the past up I didn't see you not looking when I messed up Settling down in your early twenties Sucked more blood than a backstreet dentist

It don't matter to me It's all I wanted to be It's a million miles from here Somewhere more familiar

Oh my god, I can't believe it I've never been this far away from home And Oh my, god I can't believe it I've never been this far away from home And Oh my, god I can't believe it I've never been this far away from home And Oh my, god I can't believe it I've never been this far away from home

Great rulers make for greater glory
The only thing growing is on this story
Knock me down I'll get right back up again
It comes back stronger than a powered up Pac-Man

It don't matter to me
It's all I wanted to be
Is a million miles from here
Somewhere over there

Oh my god, I can't believe it I've never been this far away from home And Oh my, god I can't believe it I've never been this far away from home And Oh my, god I can't believe it I've never been this far away from home And Oh my, god I can't believe it I've never been this far away from home

Oh my god - 2/2

Oh my god, I can't believe it I've never been this far away from home And Oh my, god I can't believe it I've never been this far away from home And Oh my, god I can't believe it I've never been this far away from home And Oh my, god I can't believe it I've never been this far away from home
