

On my own - 1/1

Interprété par Hedley.

Stayed awake all night tossin', turnin'
Now my bloodshot eyes are burnin'
Working out why this ain't workin'
Fight after fight after fight
And now it's killing me

You were too busy to believe in
all the runaway dreams I was dreamin'
Time to pack up and go I'm leavin'
Fight after fight after fight
And now i gotta be

On my own
And living in worl alone
Gets better everyday
That I don't have to say
I'm sorry I'm coming home
I'm gonna make it
On my own
I'll always take the harder road
Gets better everyday
That I don't have to say
I'm sorry I'm coming home

How'd you end up so jaded?
Cynical and so sedated
Can't live in this world you created
Day after day after day
And now I gotta be

You will always be the only one
You always try to shallow the sun
Just remember you can never make it rain on everyone

On my own
And living in a world alone
Gets better everyday
'Cause I don't have to say
And now you're killing me
