

## There it goes - 1/2

**Interprété par Mentake.**

We are the lost  
The ones forgotten  
And this time  
The future is ours  
It's in our hands

We're the tear in your eyes  
We're the blood in your veins  
We're the beat of your hearts  
We're the sweat on your face  
We're the ones that you chase  
We're the promise that you made  
We're the voice in your head  
We're the lies that you said  
We're the kids that you pushed away  
We are...

We are the lost  
The ones forgotten  
And this time  
The future is ours  
It's in our hands  
We are one

We're the pride of your lives  
We're the light shining deep in your eyes  
We're the choice that you made  
We're the smile on your face  
When you sleep at night  
We're the best thing you had  
But you left us behind  
We're the kids that you pushed away

We are the lost  
The ones forgotten  
And this time  
The future is ours  
It's in our hands  
We are one, one

We're the pain that you feel  
We're the scars that don't heal  
We're the tear in your eyes  
We're the reason you cry  
We're the voice in your head  
We're the lies that you said  
We're the best thing you had

## There it goes - 2/2

But you pushed us away

We are the lost

The ones forgotten

And this time

The future is ours

It's in our hands

We are, we are the lost

The ones forgotten

And we've got nothing to lose

Together we stand up tall

We are one
