

## Without you - 1/2

**Interprété par Jesse Mccartney.**

I like when you whisper softly  
Things only I should hear  
That lead me on

I like the way that you smile at me  
And make me feel like nothin'  
Can go wrong

Tell me this will last forever  
Dont you ever leave

[Chorus]

I dont wanna be without u  
dream without u  
walk without u  
talk without u baby

Never take a chance without u  
Dance without u  
Nothing is the same without U baby

I could never deal witout u  
Heal without u  
Begin without u  
End without u

Baby, Im in need  
I can't breathe  
No, I don't wanna be...  
Without u

I love when your eyes wash over me  
With a look only I can tell  
Whats on your mind

I love the way that you find me  
Whenever I've lost my way  
You're just in time

Baby we've got something started  
Say we'll never stop

[Repeat Chorus]

I'll lock up my heart  
and throw away the key  
if thats what it takes

## Without you - 2/2

To keep your love with me

You open the door

To all that's good in me

I can't deny the truth

That I could never be without u

[Repeat Chorus]
