

Deceiving is believing - 1/1

Interprété par Robbie Williams.

I always have an alibi
And you allow me there
But tonight I have no conscience
So what comes after that

You're coming down already
This howl wants see us through
Nothing I can change now
I've learnt to lie to you
What happened to me
What happened to you
You were putting me on

I was leading you through
Lie to me
I always have a vision
That love would see us through

What's the point of wishing
When my dreams depend on you
Gonna needs a porter
Your friends can get around
And you can tell the story
On how I let you down

Deceiving Is Believing
Deceiving Is Believing
Deceiving Is Believing
Deceiving Is Believing

I'm much too young to be cynical
It's you that make me miserable
Can you tell a lie through a smile
In bed we're always deviant
And I'm the one who comes too late
This seems not inside of my mind my mind

I always have an alibi
And you allow me there
But tonight I have no conscience
So what comes after that
