

One love - 1/1

Interprété par Kaysha.

when i get older, i'll jump up to the sky and talk to the stars about you
when i get deeper, i'll dive to the bottom of the seas and get these pearls for you baby

cause i got one love
and i can love you for the rest of my life
i got one love
and i can love you for the rest of my life

when i get stronger, i'll walk up to my ex and tell i'm in story, baby
sooner or later, i'll put a ring on your finger
and love you forever and after
and show you will, my love
cause you're my destiny, my ebony
my ivory, on my piano keys
the reason why, i'll travel through, the seven seas, cause you are my love

i got one love
and i can love you for the rest of my life
i got one love (one love, baby)
and i can love you for the rest of my life

when i get wiser, i'll take a resolution
and make my revolution, oh yeah
When i get lighter, i'll take my love with me
and dwell in paradise, and wait for you forever, oooh
and i can love you for the rest of my life

cause i got one love, yeah
i got one love, one love, one love
and i can love you for the rest of my life

i got one love
and i can love you for the rest of my life
i got one love, baby
and i can love you for the rest of my life

cause i got one love (for you)
