

Let the rain fall over me - 1/2

Interprété par Geneviève Charest.

O vos omnes, qui transitis
Attendite et videte
Sicut dolor si est dolor meus

I am walking in the rain
And I feel, I feel
The shadow that I long to see
Hides the sun

Wishing you were here for me
Darkest clouds
Won't prevent my quest for thee
I know I will find you my love

Let the rain fall over me
Take my hand and set me free
Help me sail the seven seas
Make the winds be calm
Drifting through the universe
To the place I want to be
Let the rain fall over me

Darkness comes, there is no pain
And I see, I see
Memories that are yet to be
And I see you

Smiling out the best in me
In the sun
Dreaming of you, blissfully
The way through the shadow is here

Let the rain fall over me
Take my hand and set me free
Help me sail the seven seas
Make the winds be calm
Drifting through the universe
To the place I want to be
Let the rain fall over me

While the heat of the sun
Sets me free
I want to be
In love with you

Let the rain fall over me - 2/2

I am walking in the rain
I see, and I feel
Your shadow reaching out to me
Hides the sun

Wishing you were here for me
In the crowd
Holding out my hand for thee
I know I will find you my love
