

# Synesthesia - 1/1

**Interprété par Afi.**

Heartbreak, incarnate, I'm nothing if not your memories  
Heartbreak, please let me be enjoying your pain

Someday, I will be...  
I'll be the common voice for community  
Because I am a man who'll forever be  
Where all remaining failed

Please let me understand I'm your pillow  
Letters of past so distant and wrinkled  
(x2)

(Just say...) Say you will follow me (follow me)  
Invite me to your memory  
(Just sing...) Sing again for me (for me)  
That long forgotten song

Heartbreak, incarnate, I'm nothing if not your memories  
Heartbreak, please let me be enjoying your pain

Someday, I will be...  
I'll be that what you want from a failing dream  
Because I will, I may at best  
Be as low as you feel

Please let me understand I'm your pillow  
Letters of past look distant and wrinkled  
Please let me understand I'm your pillow  
Letters of past look distant and wrinkled

(Just say...) Say you will follow me (follow me)  
Invite me to your memory  
(Just sing...) Sing again for me (for me)  
That long forgotten song

Let me be all the words(x4)

Let me feel the words echo in comfort  
Let me be all the words that you'd unsay  
Let me feel the words echo in comfort, comfort, comfort, comfort  
Let me be all the words that you'd unsay, unsay, unsay, unsay

Let me feel the words echo in comfort  
Let me be all the words that you'd unsay  
Let me feel the words echo in comfort, comfort... comfort  
Let me be all the words that you'd unsay, unsay, unsay, unsay
