

Without You - 1/2

Interprété par Ayo.

Sadness, covers my eyes
But there's still some room to see
The truth behind the lies
Now I'm old enough, to realize
Who there for me, all my life
Nobody was there for you
But you're for everybody who needed you
Nobody was on your side except, of us and a drug addicted wife
It wasn't easy
But you always fought for your family
You sacrificed your life
For your kids and for your wife

Where would I be today without you
Being there for me all my life
What would I do today without you
Taking care of me all the time
(refrain X2)

Sadness, covers my soul
While I'm singing this song
For you to let you know
That everything you did I appreciate
And I know without you
I wouldn't be here today
You were always there for me
You are my best friend, daddy
I know I was unfair, sometimes
With this song I apologize

Where would I be today without you
Being there for me all my life
What would I do today without you
Taking care of me all the time
(refrain X2)

I would be lost
Wouldn't do anything
would go to the wrong way
I wouldn't even sing
I would be down
would be depressed
just hanging around
Whitout prospects

Without You - 2/2

Where would I be today without you
Being there for me all my life
What would I do today without you
Taking care of me...
