

## Af607105 - 1/2

Interprété par Charlotte Gainsbourg.

Melancholy

aviation

chocolate

perfume

cigarettes

frequent flyer

stow away

dislocation

sleeping

jets

wave goodbye

feel homesick

tranquilizers

bill of fare

cry easy

dvt

disappear into thin air

chorus

we wish you all a very happy pleasant flight

this is a journey to the center of the night

and the inflight entertainment's out of sight

here on af 607105

time difference

you're waking

chase the sun into your eyes

sleeping cities

dust hotel rooms

passengers look to the skies

fly over

your lifetime

and never touching down

my heart

is breaking

somewhere over saskatchewan

chorus

we wish you all a very happy pleasant flight

this is a journey to the center of the night

and the inflight entertainment's out of sight

here on af 607105

your life in

the wrong hands

## Af607105 - 2/2

savannah and frozen wastes

the flight path  
the wingspan  
below the earth rotates

i love you  
i miss you  
i cannot see your face

invent a  
new persona  
drunk here on the edge of space

all the things i carry with me  
and all the things i left behind  
and all the things that wait to meet me  
hover in the air tonight

if i can only keep on moving  
and never stop and think of me  
and freefall through the years and decades  
terminal velocity  
chorus  
we hope you had a very happy pleasant flight  
this is our final destination so goodnight  
like a stone we are now falling from the sky  
farewell from af 607105

the cabin  
is burning  
i smile and feel complete

here amongst  
total strangers  
27 000 feet

suspended  
isolation  
kids throw toy planes in the street

one final  
blaze of glory  
viewed from a window seat
