

The story - 1/1

Interprété par 30 Seconds To Mars.

I've been thinking
Of everything I used to want to be
I've been thinking
Of everything of me of you and me

This is the story of my life
(These are the lies I have created)
This is the story of my life
(These are the lies I have created)

I'm in the middle of nothing
And that's where I want to be
Well, at the bottom of everything
I finally start to believe

This is the story of my life
(These are the lies I have created)
This is the story of my life
(These are the lies I have created)
I've created!

And I swear to God I'll have found myself in the end
And I swear to God I'll have found myself in the end
And I swear to God I'll have found myself in the end
And I swear to God I'll have found myself in the end
In the end
And I swear to God I'll have found myself in the end
In the end
In the end
In the end
In the end

This is the story of my life
(These are the lies I have created)
This is the story of my life
(These are the lies I have created)
This is the story of my life
(These are the lies I have created)
