

## Echelon - 1/1

**Interprété par 30 Seconds To Mars.**

Look at the red red changes in the sky  
Look at the separation in the border line  
But don't look at everything here inside  
And be afraid, afraid to speak your mind

It took a moment before I lost myself in here  
It took a moment and I could not be found ?  
Again and again and again and again I see your face in everything  
It took a moment the moment it could not be found ?

What's with the fascination with the Echelon  
What's with the constant questions that you have this time  
What's with this circumstantial consequence  
Find oversight before this night will ever rise again  
It's all you've got inside your head, better get up and leave instead

It took a moment before I lost myself in here  
It took a moment and I could not be found ?  
Again and again and again and again I see your face in everything  
It took a moment the moment it could not be found ?

To find ourselves lost here within we need reasons why  
So we take this bridge with the other's that will thrive in the great divide

Look at the red red changes in the sky

Again and again and again and again I see your face in everything  
Again and again and again and again I see your face in everything

It took a moment before I lost myself in here  
It took a moment and I could not be found ?  
Again and again and again and again I see your face in everything  
It took a moment the moment it could not be found ?
