

# Only love - 1/1

**Interprété par Groove Coverage.**

My friends do always tell me that they see you drop the top  
Got a girl in every city flirting all around the clock

Oh baby's catching Junglefever Junglefever's catching you  
Shouldn't try to tell me lies rather come out with the blues

I got a feeling baby I lose control you cut my heart in peaces you crush my soul  
I got a passion baby I lose control you rip my heart in peaces you crush my soul

You can go you can walk you can run you can hide away  
Then you'll hear me say, it's only love  
All the time that I cry that I die that I lost in you  
I'd always trust in you, it's only love

My man is creeping slowly day by day he's knocking boots  
Magnatising all the ladys, will I pick my gun and shoot

Oh baby's playing with my warning with my heart you shouldn't play  
Cause I'm living for the moment so I'm leaving you today

I got a feeling baby I lose control you cut my heart in peaces you crush my soul  
I got a passion baby I lose control you rip my heart in peaces you crush my soul

You can go you can walk you can run you can hide away  
Then you'll hear me say, it's only love  
All the time that I cry that I die that I lost in you  
I'd always trust in you, it's only love

When I feel so bad when I feel so sad I'm longing  
At the time we had the time I can't forget

You can go you can walk you can run you can hide away  
Then you'll hear me say, it's only love  
All the time that I cry that I die that I lost in you  
I'd always trust in you, it's only love

You can go you can walk you can run you can hide away  
Then you'll hear me say, it's only love  
All the time that I cry that I die that I lost in you  
I'd always trust in you, it's only love
