

## On again, off again - 1/1

**Interprété par Sean Lennon.**

And just as the sun sets  
Just as we will forget  
These precious moments  
When another day is through

And just as the moon knows  
It cannot always glow  
Through every evening  
Some days you will find me sleeping

Cause I'm on again and off again  
I never told you I never will  
Cause I'm on again and off again  
If I can't hold you somebody will

Love is like the ocean  
Forever in motion  
Forever changing  
Never twice the same

You may miss me one day  
You may wish you hadn't stayed  
You may forget me  
You may never let me go

Cause it's on again and off again  
I never told you I never will  
Cause it's on again and off again  
If I can't hold you somebody will

On again and off again  
I never told you I never will  
Cause I'm on again and off again  
If I can't hold you somebody will
