

On again, off again - 1/1

Interprété par Sean Lennon.

And just as the sun sets
Just as we will forget
These precious moments
When another day is through

And just as the moon knows
It cannot always glow
Through every evening
Some days you will find me sleeping

Cause I'm on again and off again I never told you I never will Cause I'm on again and off again If I can't hold you somebody will

Love is like the ocean Forever in motion Forever changing Never twice the same

You may miss me one day You may wish you hadn't stayed You may forget me You may never let me go

Cause it's on again and off again I never told you I never will Cause it's on again and off again If I can't hold you somebody will

On again and off again
I never told you I never will
Cause I'm on again and off again
If I can't hold you somebody will
