Happiness - 1/1

Interprété par Sean Lennon.

Have you ever felt before That everyone around you knows the deal Except you And it makes you feel Like a moray eel Green and blue

But listen up because I know just how it feels to want more than you have In life

Have you ever felt uncool On the way to school, you drag your feet around. Sometimes you act like a fool Just to get her to look over at you

But listen up because i know just how it feels To be the only one without a clue Happiness is when you're not stressed Though you messed up many things And all the rest You can forget 'cause its not worth suffering

Maybe i'm not all that you expect me to be But one day I'll show you all i can be
