Together we are one - 1/2

Interprété par Delta Goodrem.

Here we are Sharing our lives We made it through The good and bad times And still we stand With hope in our hearts No matter what We will play our part And now we've come so far One chance to touch a star Go higher and higher

Find your guiding inspiration In a place where dreams are made With a lifetime's preparation It's no time to be afraid Put our difference behind us While we shine like the sun See what we've all become Together we are one

Deep inside your heart and soul You've worked so hard To reach your goal With every step With every breath You gave it all Till there was nothing left Seek out the strength to win No thoughts of giving in Go higher and higher
