

# Heal me - 1/1

**Interprété par Sunrise Avenue.**

This is something I cant hide  
Cant throw it away  
This is something I cant fake  
They know youre away  
They know how to break me  
They know youre far away

If this sadness takes its place  
Ill free the space it needs  
Im hiding in the place  
Where we share the days  
Where we share the nights  
Go through dark and light

Could you believe Im waiting for someone  
Could you believe Im holding the night with my hands  
Alone in the night on my own  
I feel the pain inside me  
Only you can heal me

This is something I cant take  
I feel so lame  
There is nothing in my mind  
But you all the way  
You rule every moment  
Youre the air around me

Loves a lonely road sometimes  
I keep moving on  
Towards the moment youll be mine  
A long way to go  
To where we belong  
Well be there before long

Could you believe Im waiting for someone  
Could you believe Im holding the night with my hands  
Alone in the night on my own  
I feel the pain inside me  
Only you can heal me

By sharing this moonlight  
And the tears in my midnight cry  
I need to hear you breathe by  
Me in the night, deep in the night
