

## Burslem normals - 1/1

**Interprété par Robbie Williams.**

In your face there's nowt left  
They have defaced the marks  
You left upon the wall  
The writing not on there at all  
Can you stand what you stood for  
Are you more normal then before

Goodbye to the normals  
Goodbye to the normals

In your place there's just chavs  
The kids aren't alright  
They know they're born today  
Reaching out to feel the sun  
At the time it seemed like fun  
I was there when you got done  
There for two weeks by the surf  
We used to know what we were worth  
Before the normals fell to earth

Goodbye to the normals  
Goodbye to the normals

Whatever happened to  
The mean mortals crew  
The fine young casuals  
Blew a fuse and  
All the Burslem lads know  
That they're all Dads  
It meant so much to me  
It makes me sad

In your wake there's nowt left
