

The sun doesn't like you - 1/1

Interprété par Norah Jones.

The sun doesn't like you, you always get burned
Stay in the shade and watch the world turn
Better find a new place to lay on the ground
Can't stay where you are or you're gonna be found

And time won't pass you by
And I won't tell you lies

So tonight ... we can build a fire
In the open field past the razor wire
Sneak by the dogs when they go to sleep
Bring part of yourself that you'll let me keep

'cause time won't pass us by
And I won't tell you lies
Someday I will ask you why ... but not now

And time won't pass us by
And you won't tell me lies
Someday we all have to die ... but not now
