

## The heart of everything - 1/2

Interprété par Within Temptation.

For the pain and the sorrow  
caused by my mistakes  
[something] immortal  
humans are to blame  
Now I know I will make it  
there will be a time  
We'll get back our freedom  
they can't fake what's inside

I'll face it  
cause it's the heart of everything

Open up your eyes  
save yourself from fading away now  
Don't let it go  
Open up your eyes  
see what you've become, don't sacrifice  
it's true [something] heart of everything  
Open up your eyes

[something] now I'll face it  
by the solemn hour  
very soon i'll embrace you  
On the other side  
hear the crowd in the distance  
screaming out my faith  
Now the voice's are fading  
I can feel them [something]

I'll face it  
cause it's the heart of everything

open up your eyes  
save yourself, from fading away now  
don't let it go  
open up your eyes  
see what you've become, don't sacrifice  
it's true [something] the heart of everything

[oooh's]

Open up your eyes  
Open up your eyes

Open up your eyes  
save yourself, from fading away now  
don't let it go

## The heart of everything - 2/2

Open up your eyes
