

## No school today - 1/1

**Interprété par Superbus.**

You're sixteen, you're late at school  
You don't like working, I understand, it's cool  
You have a band but you haven't found a name  
You're not the same that's what your parents say

What about your life, before to be a rockstar  
What about your life, before to be a rockstar  
You say : no way I won't go to school  
Today what about the rules  
No more teachers, no more work  
I'm leaving with my band around the world  
No way I won't go to school  
Today what about the rules

You told your friends you wanted to leave  
They said "it's crazy", what are you doing ?  
But they don't know, they really don't know  
What's happening on stage when your doing the show

What about your life, before to be a rockstar  
What about your life, before to be a rockstar  
You say : no way I won't go to school  
Today what about the rules  
No more teachers, no more work  
I'm leaving with my band around the world  
No way I won't go to school  
Today what about the rules  
No more teachers, no more work  
I'm leaving with my band around the world

No way I won't go to school  
Today what about the rules  
No more teachers, no more work  
I'm leaving with my band around the world

No way I won't go to school  
Today what about the rules  
No more teachers, no more work  
I'm leaving with my band around the world
