Another constellation dies  
Do what you want 'cause it's your own sky  
Just call me when the phone stops ringing  
Thanks for coming by  
I'm just glad I'm on your good side  
Where it's smoldering or freezing  
It's never all that easy to decide

This is the land of a thousand words  
But it seems so few are worth the breath to say  
Except I'll be looking after my own world  
And you just keep on saving the day  
I'll try to stay but it's in vain when you're far  
I'm on the run to wherever you are

And that's the nature of the chase  
You fall so far behind you end in first place  
Pass the torch this time we're running to each's own regret  
There's no harm in playing hard to get  
Boundlessness deceives me  
Baby you may turn the corner yet

This is the land of a thousand words  
But it seems so few are worth the breath to say  
Except I'll be looking after my own world  
And you just keep on saving the day  
I'll try to stay but it's in vain when you're far  
I'm on the run to wherever you are

I'm a gonna do everything I say  
Tried to stay but time's running out  
But now I'm on my way
