

## Hanging onto your love - 1/1

Interprété par Take That.

Can we talk, throughout the night I need you so bad  
And when we talk can you understand my feelings  
And understand it hurts to be without you

Never prepared, never know what's going wrong  
I'm losing though, I always thought this love was so strong  
So alone, so lost in the dark,  
So hurt, cause you will always have a place in my heart

Hangin' onto your love  
Hangin' onto your love  
Hangin' onto your love  
Hangin' onto your love, I need it

Let's take a walk and reminisce about  
The feelings we used to feel  
Just stay the word and I'll be back for good my baby  
I'll be back to give you girl what you deserve

Don't say too much, did I try to rule your life  
Did the love we had between us  
Miss the road to paradise  
Can we try again, can we chance it one more time  
Can the ecstasy we found here  
Be re-claimed as yours and mine

Hangin' onto your love  
Hangin' onto your love  
Hangin' onto your love  
Hangin' onto your love
