

## Lady tonight - 1/1

**Interprété par Take That.**

The night is feeling cold now  
And I must hold now my baby date  
So glad to see you fine you're always on my mind  
But before it gets too late  
We can try love, but if love is not enough  
Then we can take a little walk  
Just to find if our intentions are in time  
Then I can make you baby see that

Lady tonight I am gonna make it happen  
Lady tonight I'm gonna take this love to new heights  
Lady tonight we are gonna feel emotion  
Maybe tonight I will love you and hold you tightly

Life is what you make it you must shake it to make it right  
Time will always make you see if you believe  
Then things will be alright  
We'll try love and if love is not enough  
We must be destined to be free  
In time you'll feel like giving up  
Then I must make you baby see that

Lady tonight I am gonna make it happen  
Lady tonight I'm gonna take this love to new heights  
Lady tonight we are gonna feel emotion  
Maybe tonight I will love you and hold you tightly
