

How would it be - 1/2

Interprété par Lene Marlin.

What have I done
What if it's too late now
Did I do all I could, did I
Did I make it all good, did I
Somehow it doesn't feel right
Is it really all over
Did I think it through, did I
What if all I want is you

And now I won't see you again
The moment was there, but we lost it
Time changed it all, and we let it, we let it happen
And now I wonder how it would be
If things stayed the same, and we liked it
The end of a search, 'cos we found it, how would it be

How would it be
How would it be
How would it be

What have we done
What if it's too late now
Was it always like this, was it
Was it something we missed, was it
Somehow it doesn't feel right
Is it really all over
Was it all it could be, was it
Did I give you the best of me

And now I won't see you again
The moment was there, but we lost it
Time changed it all, and we let it, we let it happen
And now I wonder how it would be
If things stayed the same, and we liked it
The end of a search, 'cos we found it, how would it be

How would it be
How would it be
How would it be

And now I won't see you again
The moment was there, but we lost it
Time changed it all, and we let it, we let it happen
And now I wonder how it would be
If things stayed the same, and we liked it
The end of a search, 'cos we found it, how would it be
