

Standing next to me - 1/1

Interprété par The Last Shadow Puppets.

Want her, have her
Two years have gone now but I
Can't relate to the never-ending games
That you play
As desire passes through
Then you're open to the truth
I hope you understand

But your love is standing next to me
Is standing next to me

The one you fell for makes it seem juvenile
And you'll laugh at yourself again and again
And we'll drink to the thought she'll
Remember you, maybe tomorrow

And your love is standing next to me
Is standing next to me
And your love is standing next to me
Is standing next to me(x3)

Want her, have her
Two years have gone now but I
Can't relate ti the never-ending games
That you play
As desire passes through
Then you're open to the truth
I hope you understand

And your love is standing next to me
Is standing next to me (x3)
