

When the night comes falling - 1/1

Interprété par Jeff Healey Band.

Look out across the fields, see me returning
Smoke is in your eyes, you draw a smile
From the fireplace where my letters to you are burning
We had time to think about it for a while

Well, I've walked two hundred miles, look me over
It's the end of the chase and the moon is high
It won't matter who loves who
You're loving me & I love you
When the night comes falling
When the night comes falling
When the night comes falling from the sky

I can see through your walls I can tell you're hurting
Sorrow covers you up like a cape
Only yesterday I know that you'll be flirting
With disaster you somehow managed to escape

Well, I can't provide for you no easy answer
Who are you that I should have to lie ?
You'll know all about it, love
It will fit you like a glove
When the night comes falling
When the night comes falling
When the night comes falling from the sky

For all eternity I think I will remember
That icy wind that's howling in your eye
You will see me in your time
In the wasteland I love your mind
When the night comes falling
When the night comes falling
When the night comes falling from the sky.

“When the night comes falling” was written at first by Bob Dylan.
