

Soundwaves - 1/1

Yeah I was cruel
I could never play by those rules

Don't know what you are
Can't know what you are
So fast, I lost control
Don't know what you are
Don't know who you are
Is that how the night goes

I'm tripping and the soundwaves making me crazy
But you know I wanna fight it, fight it
I knew that it could always be this way
I'm flipping and the soundwaves making me hazy
But this time I think I like it, like it
I knew that it could always feel this way

I knew this time that I was wasting
Broken heart was only yours to lose

Don't know what you are
Don't know who you are
